Education

Universidad Internacional de La Rioja (UNIR), Technology Project Design and Management

Mexico City, Mexico
July 2024

Universidad Católica Boliviana San Pablo, Mechatronics Engineering

Tarija, Bolivia
Sept 2020

Experience

Pontificia Universidad Católica de Valparaíso (PUCV), PhD Student / Researcher, School of Industrial Engineering

Valparaíso, Chile
Mar 2026 – present

- PhD student and researcher in the School of Industrial Engineering.

ESAM (Bolivia), Instructor — Learning Models in Educational Robotics (Specialization in Robotics and Programming Applied to Education)

Bolivia
2026 – 2026

Universidad Católica Boliviana San Pablo, Instructor — Methodological Workshop I (Master's in Engineering and Supply Chain Management)

Tarija, Bolivia
2026 – 2026

Universidad de Buenos Aires (UBA), Facultad de Ingeniería, Thesis Advisor — Master's in Embedded Artificial Intelligence

Argentina
2026 – 2026

Universidad Católica Boliviana San Pablo, Full-time Lecturer, Mechatronics Engineering

Tarija, Bolivia
Feb 2022 – Jan 2026

- Taught 34 semester-long courses and 2 modular undergraduate courses in Mechatronics Engineering, covering robotics, industrial automation, instrumentation, electronics, mathematics, and project management.
- Supervised, advised, and monitored undergraduate thesis work for 33 Mechatronics Engineering students.

Activities

INFORMS Student Chapter, School of Industrial Engineering (EII), Vice President

PUCV, Valparaíso, Chile
2026 – present

Laboratorio de Sistemas de Transporte Inteligente (LSTI), Member

PUCV, Valparaíso, Chile
2026 – present

Universidad Católica Boliviana San Pablo, Full-time Lecturer, Mechatronics Engineering

Tarija, Bolivia
Feb 2022 – Jan 2026

- Led the curricular redesign of the Mechatronics Engineering program for the 2025 study plan.
- Led the self-evaluation committee for program accreditation before Bolivia's Executive Committee of Universities (CEUB), and executed the resulting improvement plan.
- Led the redesign and modernization of the Automation and Robotics lab infrastructure and usage guides, standardizing practices, safety protocols, and evaluation criteria.
- Coordinated the project "Bolivian Sign Language to Oral Communication Translator."
- Collaborated on the "Ecotintes" project, revaluing Misión-Guaraní culture in the Chimeo community through textile applications.

- Drove the transfer of undergraduate thesis projects to the productive sector and municipal incubators, securing seed capital and coordinating with local stakeholders.

OCEPB National Academic Committee, Departmental Coordinator — Robotics Area

Tarija, Bolivia
2022 – 2025

- Organized the departmental stage of the robotics area of the Bolivian Plurinational Student Science Olympiad, coordinating teacher/student training and leading technical evaluation of teams.

Startup Weekend Bolivia, Winner, "Tech" category

El Alto, Bolivia
2016 – 2016

- Won Startup Weekend Bolivia and competed in the Global Startup Battle with the project AlertaUV.

8th International Olympiad on Astronomy and Astrophysics, Bolivia's Representative

Suceava, Romania
2014 – 2014

- Sole representative of Bolivia at the 8th International Olympiad on Astronomy and Astrophysics.

Certificates

Diploma in Data Analysis with Artificial Intelligence

2026

Diploma in Higher Education

Apr 2024

Diploma in Audit, Evaluation, and Legislation of Technology Projects

Nov 2023

Diploma in Project Management

May 2023

Diploma in Technological Innovation

Nov 2022

Course in Scientific Research with Artificial Intelligence

July 2025

Course in Evaluation and Accreditation of Academic Program Quality

July 2023

Course in Machine Learning with Python

June 2023

Specialization Course in Automation and Control with Schneider Electric

Apr 2020

Skills

Programming & tools

Quantitative methods

CAD & prototyping

Industrial automation & instrumentation

Electronics

Embedded systems
